

# CALL FOR COOPERATION TO SERBIAN DIASPORA

Science Technology Park Belgrade - STP Belgrade is established in the partnership of the Government of the Republic of Serbia, City of Belgrade and University of Belgrade, supported by the Swiss Government, aimed at creating a favorable environment for the new technology development and commercialization of innovations by developing links between the science and economy. STP Belgrade currently gathers more than 50 companies - start-ups and growing high-tech development companies in the following high-tech areas:

- Information Technology
- Energy Efficiency
- Smart Cities
- Agriculture and Food
- Internet of Things - IoT
- Industrial automation and mechatronics.

## YOUR PARTNER IN SERBIA!

STP Belgrade offers attractive service package of infrastructure and business support services to its users towards helping them accelerate their business growth. Additionally, STP Belgrade offers cooperation, joint projects and organization of scientific and entrepreneurial conferences, all of which create many employment opportunities. The great success achieved following two years of operations is partially the result of previous support for the technological development and entrepreneurship in Serbia provided by the Serbian Diaspora. Therefore, we invite all members of the Serbian Diaspora to take part in one or more STP Belgrade programs towards our future successful cooperation.

## STARTUP PROGRAM

If you are interested in opening a startup company in Serbia, our team along with the developed set of services provided by the Business Technology Incubator of Technical Faculties (BITF) integrated within the STP Belgrade complex, are at your disposal. BITF has thus far supported the establishment and development of more than 70 startups, some of them founded by the members of Serbian Diaspora (e.g. Aggios, Teleskin, etc). If you are considering starting your own business in Serbia, feel free to contact our BITF team for any additional information.

Janko Pavlović,  
Director of Digital Worx Startup:

"Science and Technology Park Belgrade is an institution based on the principles of entrepreneurship and innovation, therefore every cooperation with the park is a very unique experience! The park opens many doors to young companies through mentoring, consulting, connecting with significant contacts, but often with financial support for presence at fairs and conferences."

digital worx

Sava Markinković,  
Co-founder of TeleSkin (startup company):

"We are very excited for the opportunity to participate and demonstrate a part of Serbia's great potential in innovations and entrepreneurship. Serbia has some of the best scientific and medical minds, and combining them with good entrepreneurial leadership can make a large comparative advantage. Business incubator of technical faculties assisted us in accelerating our growth, and we hope that with the BITF support we will take the healthcare sector in Serbia to the next level."

## SOFTLANDING PROGRAM

If you are a part of an international company wishing to launch a development center in Belgrade, STP Belgrade can offer you a set of services that will assist your company to start doing business in Serbia. We offer support in the process of company registration, employment of young graduates, finding business partners in Serbia, cooperation with science-research centers, provision of office space in an inspiring STP Belgrade complex situated in the heart of Zvezdara Forest. STP Belgrade currently hosts over 10 development centers of international companies, and we invite you to launch your company's development center in Serbia too.

Gordana Glišić,  
Director of the development center of MHT Balkan (Italy):

"MHT Balkan was founded in 2012, and since 2016 it has been a member of Science and Technology Park Belgrade (STP Belgrade). The transition to the STP marked its greater visibility in the media, the possibility of connecting with other STP members, as well as companies outside of it and ultimately, but not least, connecting with academic institutions and other official bodies. How we belong to the Engineering Informatica SpA group, which has 9.000 people, mainly in Italy, we have frequent visits from our Italian colleagues. Structure, Management and Scientific Environment of STP formed their positive opinion on the modern concept of joint resources and intellectual potential in Serbia."

Miloš Čučulović,  
Managing Director, MDPI Development Center (Switzerland):

"People from STP Belgrade helped us a lot when we started our business in Serbia. We already have experience in opening new branch offices abroad. We have three offices in China, one in Spain and now one in Belgrade. The support we've received in STP Belgrade foremost related to the high quality office space with undoubtedly most favorable lease conditions, support with our job adds promotion at the University of Belgrade, as well as provision of useful contacts and organizing small and larger seminars, i.e. meetings with other peer companies. For that reason we would like to commend involved staff, and strongly recommend STP Belgrade as an excellent place to start and develop your business."

STARTUP PROGRAM

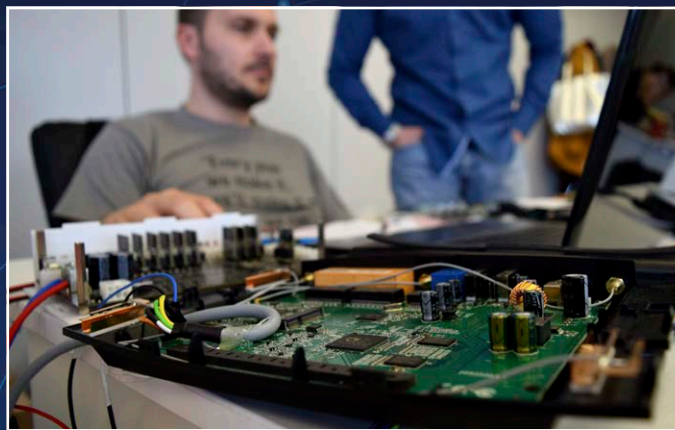

SOFTLANDING PROGRAM

## EXPORT PROGRAM

STP Belgrade offers its member companies the possibility of exporting products to foreign markets. The Serbian Diaspora is an important component that can support the further development of this type of business, enabling the arrival of Serbian companies into the markets of the countries of its members. Additional partners for this program are numerous foreign companies that have their representative offices in STP Belgrade, including companies from Switzerland, Germany, Italy, America, Uruguay, China and other countries. This program also includes potential consulting engagement by arrangement. We expect your additional suggestions for potential cooperation.

## EXPORT PROGRAM

## INVESTMENT PROGRAM

If you are looking to invest in new technologies or if you want to learn more about existing potentials for investing in Serbian startups, STP Belgrade is the right place for you. We offer support in technology mapping that might be of a potential interest to you, or organization of pitching events to introduce you with products and services of Serbian startups. BITF has supported the establishment of more than 70 innovative startups, many of which have won international innovation awards and have patented their products (Strawberry Energy, mBrain Train, etc.). Some of them have become one of the fastest growing companies in Central and South-Eastern Europe (Bitgear, HTEC, etc.).

## INVESTMENT

## MENTORSHIP

If you want to contribute to the development of startup companies in Serbia and work with young people from Serbia to achieve success in foreign markets, you are an ideal candidate for NTP mentors. There is an open call for the 2017 mentoring program for experts in the areas of business development, engineering, sales, and similar. The intention is that through transfer of acquired knowledge and experience, mentors help young people to master all the skills they need to run a business. We offer you to connect with the network of our companies and associates.
